- // Processing of projects based on the CAD tool REVIT or corresponding applications, model and database oriented

// The planning system follows the GOLDBECK BIM strategy

About GOLDBECK

GOLDBECK realizes forward-thinking real estate projects in Europe. We see buildings as products and offer all services under one roof: from design and construction to operational services. Our family-owned company currently employs over 12,000 employees at more than 100 locations, with a total turnover exceeding 6 billion euros. Our commitment to "building excellence" stands for top performance in planning, construction, and operation, as well as the development of our talents – all while ensuring future viability.

We offer our customers energy-efficient turnkey construction solutions from a single source.

Your individual profile

- // Degree in Architecture, Architectural Technology or similar discipline with a minimum of 3 years experience in using Autodesk Revit CAD software. Alternatively to have successfully completed studies in a relevant field (e.g., Architecture, Interior Design, Construction Management) or other relevant areas
- // Well-founded experience in designing and planning of projects of turnkey properties
- // Great interest in design issues and interdisciplinary solutions in building construction
- // Ability to develop designs in REVIT is essential
- // Experience with modular forms of building (desirable)
- // CSCS (Construction Skills Certification Scheme)
- // Experience in residential, commercial, education or warehouse projects desirable
- // Demonstrable knowledge of design, construction techniques, technical requirements and construction regulations
- // Strong communication skills, high customer orientation and persuasiveness
- // Ability to work in a team and enjoy acting independently and entrepreneurially
