

Trainee (m/f/d) International Production Management (specialisations Commercial)

City: Łódź

Job-ID: 10190

Tasks:

- // support the implementation of digital management tools and the further development of our commercial structures,
- // you are involved when we plan performance, costs and earnings,
- // create profitability calculations and costings to help our management make decisions,
- // conduct active procurement market research and thus support the management of our top suppliers and the improvement of our purchasing processes.

Profile:

- // successfully completed studies in a relevant unit such as business administration, industrial engineering, mechanical engineering, engineering sciences, production, logistics or technology,
- // look forward to independent work with a high degree of creative freedom in an interdisciplinary team,
- // a self-confident manner, strong communication skills and organisational talent characterise you,
- // you look forward to intercultural experience at our production sites in Poland and abroad,
- // you actively contribute your fluent Polish and good English skills to us.

About GOLDBECK

The GOLDBECK brand specialises in modular construction. We implement it perfectly. The design, construction and management of halls, office buildings and parking facilities is our core competence.

Trainee (m/f/d) International Production Management
selectable focus in the commercial unit in our central departments or on site in a GOLDBECK plant.

The quality of our GOLDBECK construction and concrete elements is ensured by our employees and by modern production facilities and processes in our production plants. As a Trainee (m/f/d), you will familiarise yourself with all functional areas of our production companies. Depending on your focus, you will work in units such as Technology, Controlling, Logistics, Digitalisation, Strategic Purchasing or Sales and at our production sites in Poland and abroad.
